Getting Started

Step 1. Login and Initiate a Search

Go to www.relecura.com click on "Customer Login" on the top-right.

A search for Patent Documents and Assignment Transaction records can be initiated using any one of the following means: query string / raw text / publication number / fielded search.

Fielded Search

Query String

Publication Number

Raw Text

Step 2. Results Page

Migrate from patent search to assignment or non-patent literature search.

Visualize

Refine

Analyze

Sort By

Group By

Drill Down

Expand

Add Tags

Select from the sort by or group by drop-down menu to arrange the result set.

Force the system to conduct search within the current result.

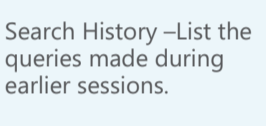

Expand the result set by family, equivalents or application number.

User-defined tags - Add tags to annotate individual patents or group of patents.

View the result set in expanded (displays abstract, keywords, concepts etc.) or collapsed form.
